

Frühjahrssemester 2018
Klinisches Neurozentrum
und
Klinik für Neuroradiologie

Neurowissenschaftlich-Neuroradiologisches Seminar

Jeweils Mittwoch 17.30 bis 18.30 Uhr
Demonstrationsraum NRA NORD 1 C225

The neuroscience-neuroradiology seminar is an educational activity of the Clinical Neuroscience Center of the University Hospital of Zurich. It is held during the academic semester on the first Wednesday of the month and covers in sequential lectures coherently a specific topic from the field of clinical neuroscience with relevance to the education, clinical practice and research in neuroradiology.

Topic of the spring semester 2018: The brain stem

- 07.03.2018 **Neuromorphology and vascularization of the brain stem**
Referent: *A. Valavanis, Prof. em., Leiter Klinisches Neurozentrum USZ*
- 04.04.2018 **Genoarchitectonics of the brainstem and imaging of gliomas**
Referent: *A. Valavanis, Prof. em., Leiter Klinisches Neurozentrum USZ*
- 02.05.2018 **Brainstem AVM's**
Referent: *A. Valavanis, Prof. em., Leiter Klinisches Neurozentrum USZ*
